TERMS: Cash or check unless prior arrangements have been made with the individual owner(s) or sale manager.

REGISTRATION CERTIFICATES: Certificates of registration are all in order. It is the buyer's responsibility to give the clerks the correct name and address for transferring the purchased animals as the certificates will be mailed from the American Hereford Association to the purchaser.

EPDS: The EPDs given are current as of October 15, 2017.

LIABILITY: Each animal will be at the buyer's risk as soon as they are sold. The Missouri Hereford Association accepts no liability nor does the Missouri State Fairgrounds. Everyone attends at their own risk.

GUARANTEE: The cattle sell with the AHA breeder's guarantee.

HEALTH: Proper health papers will be available on each lot during settlement.

AI CERTIFICATES: There will be no AI certificates furnished on animals bred to bulls not owned by the individual consignors.

INSURANCE: Insurance will be available on your purchases at the sale. Contact the sale clerk for more information.

TRAVEL: If you are flying, the Kansas City International Airport is 1 hour and 45 minutes from the sale site and is served by most major airlines. If you are driving, the Missouri State Fairgrounds address is: 2503 W. 16th St., Sedalia, MO 65301

ACCOMMODATIONS:

Best Western State Fair Inn..... 660-826-6100
Comfort Inn 660-829-5050
Holiday Inn Express 660-826-4000
Hotel Bothwell 660-826-5588
Ramada Inn 660-826-8400
Super 8 660-827-5890

Missouri OPPORTUNITY SALE

On December 3rd the Missouri Hereford Association will host the 15th consecutive Opportunity sale in Sedalia, Missouri, at the State Fairgrounds.

On behalf of the Association and the Board of Directors, I would like to be the first to invite you to be with us at the 2017 Opportunity Sale. This has become a very exciting Hereford weekend you will not want to miss. If you are unable to attend the sale on December 3rd at noon, make plans to be with us online with *Live Auctions.TV*.

We have 31 consignors bringing you 61 lots to consider. We have had over 30 consignors for this sale for as long as I can remember. This event has become a Hereford event that many Hereford breeders will not miss. This sale was designed around its name, Opportunity, which works just as well for buyers as it does for the consignors. It has helped breeders market and purchase the top cut of Herefords from across Missouri and beyond. It is a marketing service provided by the MHA to members from Missouri and other states.

Over the past 14 years we have sold cattle into as many as 13 states in a given sale. The bulls have made big impacts on both purebred and commercial herds. Many show heifers have been named champion and then gone on to be foundation females for their new owners. Cows that have raised calves coming back to the Opportunity sale. There are many opportunities awaiting you at the 2017 Missouri Hereford Association Opportunity Sale.

The demand for the higher quality cattle is still very strong. This sale is a little different than most sales because we have 31 different operations bringing you one or two of their very best. That is where the opportunity for everyone is great. You can add one or two or maybe more breeding pieces to your breeding program. As you can see, several of the lots are AI sired and even mated AI to some of the top bulls in the breed. Once again, we have an exciting group of spring heifer calves and a large group of fall pairs. This sale offers spring bred females as good as you can find, along with powerful fall yearling heifers, either AI bred or ready to breed. We have herd bull prospects that are bred to be herd sires.

These cattle have all been hand selected by our AHA Field Services Director, Joe Rickabaugh. The MHA Board would like to thank Joe for his efforts. There will be several trailers at this event from around the state and beyond to help you with your travels. This will allow these cattle to be hauled to central points around the state and beyond. All cattle must leave the sale site following the sale.

Hereford cattle continue to be in the spotlight in the beef cattle business. You will find our consignors have put together a strong set of cattle for you again this year. The show heifer age females are as good as you will find anywhere, along with the bred heifers, fall pairs and spring splits!

We will sell the rights to pages in the 2018 Missouri Hereford News newsletter.

I would like to thank the Board of Directors and the sale staff for all their hard work that truly makes this a great association event. There is fun and excitement for all in Sedalia, Missouri, the first full weekend in December each year and I would think you would want to be a part of it again this year. Plan to attend the annual meeting and banquet at 5 p.m. Saturday, December 2nd. The sale headquarters will be the Best Western State Fair Inn. Ask for the Hereford Association block room rate. Sedalia is a hard town to get a room in so call now 660-826-6100. Other accommodations are listed in this catalog.

Hope to see you in Sedalia!!!

Matt Reynolds, MHA Secretary

- Check out this bred horned heifer out of our ET calf crop from 2016. As most of you know, not many Katy daughters leave our herd, but we have an identical twin heifer that we are keeping. So, we're offering you this chance to purchase a bred Katy daughter. Dark red and fully pigmented with really nice udder development.
- Bred AI March 8, 2017, to C&L Federal 485T 6Y C (P43214122) for a bull calf due Dec. 15, 2017.

- Here is a stout, easy fleshing, big boned 5-year-old female that is our top donor cow. She has and will produce calves that are easy doing and will work in the showing, be maternal powerhouses and work for the commercial cattleman. We are selling a choice of three embryos.
- The first set is out of GKB 88X Laramie B293. This bull doesn't need a big introduction as most of you know that he dominated the horned national shows in 2015 and his calves are starting to dominate as well. We have 22Z's natural calf by Laramie and he is long, has loads of muscle and is extremely docile.
- The second set of three embryos is out of CRR 719 Catapult 109. We feel that these calves are going to be deep bodied, long and stout and super easy doing.
- Selling choice of three (3) embryos and guaranteeing one (1) pregnancy if put in by a certified embryologist.

- We love this December Twentytwelve daughter. Her dam is our best donor, which is an L18 daughter Taylor purchased from George Ochsner & Sons. This mating has been our best to date. This heifer is a complete package. She is clean fronted, square hipped, deep bodied and free on the move. This heifer should be a very good show heifer and a great addition to any herd.
- Sells open

• Oh Lordy! If you want a heifer with options, well here you go. This Trust heifer is very feminine through her front and blends into a big, powerful rib and hindquarter.

• Sells open.

- COFO Ms 719 Advanced Lady C671 is a great addition to any herd. She is an easy calving first calf heifer with impressive EPDs. She is structurally sound with excellent body structure and strong maternal traits. She has solid udder conformation and is sure to produce a good calf.
- Lot 21A — Her heifer calf, E831, was born Sept. 24, 2017, with an excellent birth weight of 78 lb. and is off to a strong start. She has the potential and ability to add productivity to your herd.

- The Feb. 11, 2017 show heifer prospect is by APH Doss 10Y Home Stretch 6B, "Homer", who is a Hometown 10Y x Revolution sire we used for two years. We are retaining a superior group of Homer heifers to start our next line of females. Pigment, rib, EPDs and a great look. We will not be selling many Homer heifers. This heifer's dam is the mother of our recent bred heifer that sold in the Ladies of the Royal sale for \$6,200 to Express Ranches, Yukon, OK. Have fun in the showing with this one and then put her in your front pasture.

- 678 is one of the oldest daughters of the Porterhouse 455 bull and she is quite an impressive female. She stems from the 915W cow family which has really made her mark in our herd.
- We are retaining 1/2 embryo interest if she should become a donor for the new owners.
- Bred April 7, 2017, to FTF Prime Product 2262, then pasture exposed April 15 to May 10, 2017, to R Excitement 4356, then May 11 to July 25, 2017, to HUTH FTF Torque C002. She is ultrasounded safe with a heifer pregnancy to R Excitement 4356, who was the high selling bull at the Rausch sale this past spring.

- We are offering this beautiful 2-year-old Progression daughter to showcase the quality of Y449 females who are doing a great job for us and our partner, Journagan Ranch. We didn't get a picture, but she will not disappoint when you see her. Long and clean fronted with a very feminine look to her profile. She has a gorgeous udder that is level and extends forward in her front quarters with small teats and tight attachments. We would like to have a pasture full just like her.
- Bred AI May 30, 2017, to our new Mr Maternal son from Coyote Ridge, CRR 156T Maternal Force 567 ET, then pasture exposed to the same bull from June 10 to July 2, 2017. Safe to the AI date.

- Patrice was our "Luck O' the Irish" when she was born on our place last year. Her mother has a picture-perfect udder and has raised several nice calves for us, including our bull consignment, H2 719T Head of the Class 00D. This goggle-eyed heifer calf has a pedigree equally impressive to her maternal sibs. With five Sires of Distinction, a Dam of Distinction and 8006 in her background, I'm truly excited about her future! Don't miss out on this one because she could be your "lady luck!"
- Sells open.

- You can spend hours and hours surfing the Internet and drive hundreds of miles, but still not find another bull with a pedigree that's as complete as this one. Check out his EPD graph! Need I say more? These numbers speak volumes about this bull. This, combined with his short marked, dark red pigment, would make him an asset to any herd. Whether you're a commercial cowman looking for the superior black baldies or a purebred breeder in search of improvement and some fresh genetics, this individual will put your herd at the "head of the class!" This bull will pave the way for the future of your program.

Pick of Three Herd Bull Prospects

- Kaczmarek 4K Herefords is proud to present America's first lot of Churchill Kickstart 501C ET bulls. The nationwide excitement over Kickstart, along with our maternal pedigrees, have produced an outstanding genetic package. Study the genetics of these three bulls. Hand-picked along with Joe Rickabaugh, we believe they will be the cornerstone to building a great herd.
- Terms of Sale: Kaczmarek Herefords is selling full possession and 2/3 semen rights. Retaining 1/3 semen rights with revenue interest.

- Horned. A very complete heifer with a lot of style. Here is a great opportunity to support the Missouri Junior Hereford Association.
- Another big thank you goes out to the entire Woods family for the donation of the 3020 cow a few years back to help the juniors go to the NJHA Expo in Harrisburg, PA. This is the 2017 calf; proceeds go to the MJHA.

- This moderate framed 2-year-old is making a really nice momma cow. Study her pedigree and see how many breed greats are wrapped in one individual.
- She has a nice udder and adequate milk flow for her bull calf, born Oct. 23, 2017. He is sired by LSW WCC About Time X06, who is the sire of the Grand Champion Steer at this year's Junior National Expo.
- Sells open.
- Lot 44A — Bull calf TT 39E, sired by LSW WCC About Time X06, born Sept. 16, 2017, is wide topped, dark red and goggle-eyed, just like we want them all to look.

- This 10Y daughter is so correct on her feet and legs with nice width of body. She is from one of our very top cow families, FTF 823U. The only way we can afford to let this female leave our herd is because her dam, maternal sister and daughter are being retained. We feel the calf she is carrying can only add to her value.
- Bred to H W4 Pure Country 0109 (P43091171), pasture exposed May 5 to June 15, 2017, then pasture exposed June 15 to Aug. 1, 2017, to GKB 88X Ribeye 327B (P43569494).

- Check out this beauty! She is the first Action calf born on our farm and we are very pleased. This heifer came right out of my replacement pen to take the place of a cow who was supposed to be in the sale. She is goggle-eyed, well made and has plenty of rib and dimension. Her dam combines two of my favorite cow families on the farm, the 312 and 266N families. I would love to see her in production, but feel it's important to put good ones in our state sale. A maternal sister sold to Diven Farms last year. Polled. OCV
- I would like to reserve the right to one flush, six (6) embryo minimum at buyer's convenience.

- Here is a top prospect out of Hometown who was in our show string this summer. Mirage has been a favorite since she was a young calf due to her eye appeal and good nature. She has a nice profile and is short marked. She also has a nice set of numbers: good growth, maternal and carcass. Her dam is a gorgeous uddered cow who unfortunately had to be pulled from the sale. Mirage will make a nice project for a junior but more importantly, make them a nice cow down the road. Polled. OCV.

- Front line Hereford genetics right off of the top of our spring 2017 calf crop. Check out the power in this female backed by the breed's powerhouse sires 719T, Ribeye, P606, Logic, Nolan, 33Z and a breed up-and-coming sire, JDH 13Y 33Z Champ 45B ET. Polled.
- She sells open with two straws of JDH Z311 Insight 30D ET!
- This heifer has really changed since picture day!

- A productive daughter of former Accelerated Genetics sire, Foremost. Out of our Vivian cow family, which contains some of our favorite cows at Schu-Lar. Nice udder and milk flow with breed leading EPD tabulations. Thirteen EPDs and Index values met or exceeded the top 15% of the breed vs. active dams. Breed leading growth and carcass with top 3% WW and YW; top 15% REA, top 4% MARB and top 1% CHB\$! 341-day calving interval on two calves with an average weaning ratio of 101.
- Bred April 22, 2017, to NJW 73S W18 Hometown 10Y ET, then pasture exposed May 6 to Aug. 3, 2017, to EFBeeF Resolute CEO. Tested safe to AI date by ultrasound.

- This heifer, Remember Me, is a dark, stout polled calf out of GO 3196 Advance S109 and a first calf heifer. This calf's dam did a wonderful job with her first calf. This heifer, Remember Me, had a weaning ratio of 111. We are very excited with what this heifer's dam will contribute to our herd. We sold this calf's grandam here at last year's sale and her great-grandam, Boyd Lady Shannon 4048 ET, is still walking our pasture, due to calved Dec. 3, 2017, two months before her thirteenth birthday. Longevity in this cow family. BW 78 lb.

- We are very excited for this pair. Showtime comes from a whole line of champions. Her dam, Shown Off, is a full sister to a past Ft. Worth National Champion female. We are very fortunate to have a heifer born last fall and again this fall out of this female's dam. We also have a few half-sisters to Showtime's dam. It really is amazing the quality that Rockin Erica passes on. This is the reason we purchased this female's grandam, STAR Errika RCR 28L, and we have not been disappointed one time.
- Lot 56A — Sells with a heifer calf by GO 3196 Advance S109, born Aug. 30, 2017, BW 79 lb.

- OAKS Special Trust 917B is truly a special cow. Her dam and grandam are both Dams of Distinction. Special Trust herself is on track for that designation. Her first calf last fall, also out of S109, had a weaning ratio of 106. That heifer is in our replacement pen. Study her pedigree. This is one heck of a cow family. She definitely will be a special lot on sale day.

- We were blessed with nearly all heifers last fall and a powerful set at that! We would love to keep them all, but our loss will be your gain! Two of the heifers showed at the Missouri State Fair where both won their classes and one was selected reserve in a competitive four class, 40-head division. This heifer stayed home, but she's every bit as good! Super neat shouldered and yet still super bold in her upper rib. Sound and functional from the ground up and goggle-eyed to boot! Take her on the road next summer and she won't let you down. Then turn her out and she'll impress you even more! With her no-miss momma, a double bred P606 daughter that came to us from Duvall Polled Herefords, and Red Bull on the top side, she's sure to be a powerhouse cow that can put some good ones on the ground for you

- Here is a very easy fleshing 2-year-old daughter of Federal 6Y. Federal has made a huge impact in the MSU/Journagan program. 54C is the kind that will flourish in fescue country. She is slick haired, big middled and very cowy. 54C is out of a Y509 first calf heifer. The Y509 females are all among our very best.
- Lot 59A — Maybe her biggest asset is the Revolution 4R heifer calf at side born Sept. 2, 2017. Don't miss this one!
- Breeding info available on sale day.

- Wow! What a 2-year-old with a ton of potential. Dark cherry red and goggle-eyed with a phenotype that is absolutely gorgeous. 98C has enough look to sire show calves along with a no-miss pedigree destined for great females. Her dam, X103, leads our donor program. She is very consistent in producing females with perfect udders and excellent milk flow. A full sister sold in 2015 as an open heifer for \$9,500. Here is a chance at a great young female.
- Lot 60A — Bull calf 118E at side, born Oct. 31, 2017, by WMC 17Z A154 King 4C.
- Breeding info available on sale day.

- A one of a kind super cow in the making. We are lucky to have Mr Maternal walking our pastures, so we wanted to offer one from deep in our replacement females. The Mr Maternal females are some of the very best and most consistent cows in the Hereford breed. 106D comes from a Dam of Distinction Trojan female that records BW 5@98, WW 5@102.4, YW 5@103.2. 106D's grandam is still producing at the age of 12 and records WW 8@110.6, YW 5@110 and REA 3@107.7.
- Will be bred AI to EFBeeff TFL U208 Tested X651 ET by sale day.
