TERMS: Cash, check or all major credit cards unless prior arrangements have been made with the individual owner(s) or sale manager.

REGISTRATION CERTIFICATES: Certificates of registration are all in order. It is the buyer's responsibility to give the clerks the correct name and address for transferring the purchased animals as the certificates will be mailed from the American Hereford Association to the purchaser.

EPDS: The EPDs given are current as of September 28, 2026.

LIABILITY: Each animal will be at the buyer's risk as soon as they are sold. The Missouri Hereford Association accepts no liability nor does the Missouri State Fairgrounds. Everyone attends at their own risk.

GUARANTEE: The cattle sell with the AHA breeder's guarantee.

HEALTH: Proper health papers will be available on each lot during settlement.

AI CERTIFICATES: There will be no AI certificates furnished on animals bred to bulls not owned by the individual consignors.

INSURANCE: Insurance will be available on your purchases at the sale. Contact the sale clerk for more information

TRAVEL: If you are flying, the Kansas City International Airport is 1 hour and 45 minutes from the sale site and is served by most major airlines. If you are driving, the Missouri State Fairgrounds address is: 2503 W. 16th St., Sedalia, MO 65301.

See you in Sedalia for Hereford Weekend!

NOON.....Missouri Opportunity Sale

A Word from the Sale Manager

Welcome to the 24th Missouri Opportunity Sale, brought to you by the members of the Missouri Hereford Association. Once again, our members have dug deep into their programs to assemble an offering that represents the quality, diversity, and value that Missouri Hereford breeders have to offer.

As you study this year's offering, you will find a combination of breed-leading genetics and time-tested bloodlines, the kind of genetics that have earned their place in Hereford programs across the country. These

cattle have been bred, born, and raised in environments much like those in which many of us make a living, giving you the opportunity to invest in genetics that can go to work in real-world conditions.

Whether your goal is to build the next generation of your purebred herd, add a herd bull with the ability to move your program forward, find that special show heifer prospect for an aspiring junior, or add females that can strengthen your commercial cow herd, there is something here for you.

And for the commercial cattleman, do not overlook the value of Hereford genetics. The Hereford x Angus Baldy remains one of the most recognized and sought-after females in the beef industry, and the right Hereford genetics can add pounds, maternal value, and market appeal to your commercial program. The female offering deserves a close look as well. If your cow herd is getting a little age on it—which, as we all know, happens sooner than we would like—take advantage of the opportunity to add open and bred heifers and young cows to your operation. There are females represented in this sale that can go to work for you and become productive members of your herd for years to come.

A special highlight of this year's sale is the offering of several packages of frozen genetics, with proceeds benefiting the Missouri Hereford Association Junior Program. These packages feature some popular and highly sought-after genetics and provide a unique opportunity to access proven Hereford bloodlines while supporting the next generation of Hereford enthusiasts. We invite you to make plans now to join us November 8th at the Missouri State Fairgrounds in Sedalia. Come early, spend a couple of hours with us, enjoy lunch prepared by our juniors, study the cattle, visit with old friends, make a new friend or two, and take advantage of the opportunity to invest in some outstanding Hereford genetics.

We appreciate your interest and your continued support of the Missouri Hereford Association and its members. We look forward to seeing you in Sedalia and helping you find that next addition to your program.

See you there! *Larry Day*

91N is a dark cherry red daughter out of Churchill Red Thunder. She is a thick and powerful made female that moves on a big, sound set of feet. We purchased her dam as a bred heifer several years back, and she has consistently produced for us. We have retained a couple of her daughters, and they are proving to be just as consistent! 91N was AI bred to female sexed Bar JZ On Demand on 5/9/2026 for a February 2027 calf. She is confirmed safe to this breeding by ultrasound. *Consigned by Triple A Farms.*

018 is a cow we purchased from Beef Resource Partners in Tabor, Iowa. She has given us a calf every year since we owned her. 018 has breed leading maternal traits along with excellent carcass traits. She is very well structured with excellent docility. She has a very influential pedigree with breed leading Churchill Red Bull on her top side along with KCF Bennett R73 on her bottom side. **Lot 3A:** Bull calf (6103) at her side born 8-20-26 out of BF GKB Eminence 111M ET (44631909) who sold for \$52,500 1/2 interest and 1/2 possession to GKB Cattle. This is the only way to get these genetics at this time because semen is unavailable for purchase. She sells open ready to breed to your liking. *Consigned by Beshler Farms.*

199M is a really hard one for us to let go of, but we decided to offer our best in this year's sale. She's so much of what we like, dark red and short marked with a pretty freckled face, and super stout and easy doing with tons of rib and a sound set of feet and legs. 199M was successfully campaigned by a junior this year, and she is just as gentle as they come. She's a classy lady and is the cowboy kind! Pasture exposed to BPH 0183 MAVERICK 2132M (44674133) from 1/9/2026 to 3/4/2026. Expected to calve around sale time or shortly before. *Consigned by Butler Polled Herefords.*

Carnage is exactly what his name implies - a massive, powerful bull with tremendous presence. This CRR 719 CATAPULT 109 son is out of GCC MAGGIE 11H, quite simply the best cow in our pasture. Maggie has proven herself year after year, consistently raising the kind of calves that keep earning our attention, and Carnage may be one of her most impressive yet. Big-bodied, big-footed bull with tremendous mass, power and substance, while maintaining a useful, balanced EPD profile. We pride ourselves in keeping and raising bulls we believe improve the breed, and this bull leaves no doubt in our minds. If you're looking to add mass, power and proven cow-family genetics to your next calf crop, take a hard look at Carnage. He's backed by the cow we trust most - and he's built like it. *Consigned by Day Dream Cattle.*

Emma is an attractive UPS Entice 9365 ET daughter. She combines eye-appeal, balance, structural integrity, and maternal power. With above-average growth, exceptional maternal value, excellent teat and udder genetics, and profitable economic indexes, Emma checks nearly every box. Her pedigree stacks breed leaders including Endure, Sensation, Blueprint, and Excede; making her genetically loaded from top to bottom. Balanced. Functional. Profitable. *Consigned by Day Dream Cattle.*

Yasmine is the kind of female we like to keep around—attractive, functional and backed by proven Hereford genetics. Sired by CRR ABOUT TIME 743 and out of CPH 824F JAYLENE 199J, she brings together a pedigree built with maternal quality and longevity in mind. We believe the maternal potential in this young female has the pieces to develop into the kind of productive, easy-doing cow that earns her place in the show ring or your pasture. *Consigned by Day Dream Cattle.*

An absolute powerhouse of a female that is incredibly easy on the eyes. This elite heifer is a direct daughter of the multi-time National Show Bull of the Year, KLD RW Marksman D87 ET, and Believe In Me. Jorja very successfully campaigned her, and now is our leading donor matron. Believe In Me back to Edith 747—without question one of the very best donor females to ever come out of the Burns Farms program in Tennessee. She possesses an elite build from the ground up, combining high-end structural integrity with extra maternal attributes that are hard to find in a single package. Her flawless balance, striking style, and undeniable eye appeal make her a true front-pasture kind of female. She has the genetic backing to anchor a premier donor program. Checked safe due approximately December 21, AI sire HB Distinct Reg: P44184682. *Consigned by JRE Livestock.*

Here is a Deluxe K016 son you don't want to miss! He offers sensational growth along with strong maternal traits. His structure, depth, length, and muscle pattern come together with power and presence. Holding an impressive set of numbers being in the top 25% in 8 traits: WW 4%, YW 7%, SC 7%, MM 25%, MG 7%, UDDR 3%, TEAT 5%, CW 19%. He has all the makings to be an outstanding herd bull. Retaining 12 semen interest. *Consigned by Lizzie's Polled Herefords.*

Here is a chance to get your hands on the well known Revolution bloodline. Her combination of maternal strength and carcass traits should make her quite a breeding piece. This feminine and well balanced heifer will make a great addition to any herd! Bred AI to FTF WASHINGTON 449M (44539799) on 5/19/26. Pasture exposed to our Show-Me Select qualified Angus herd bull, BWR Enhance J35 (20496088) from 5/26/26 - present. Preg checked safe AI due to calve late February 2027. *Consigned by Lizzie's Polled Herefords.*

N12 is a hard for us to part with. She's marked like you like em', big hiped, and long-bodied. She garnered a lot of attention while on display at the MHA Hereford Tour. Her pedigree traces back to a cornerstone of the MMM program, LJR Hazel 42U, who's offspring are no stranger to the Opportunity Sale lineup, as well as Molly's foundation cow LJR MSU Lady Advance 322A. She's puts the puzzle pieces of pedigree, longevity, and performance together in an eye appealing package. Bred AI to KRM Follow Me 8G L34 ET on 05-02-2026 and confirmed safe by ultrasound with a heifer pregnancy. Pasture exposed to MMM 038H Nobleman N01 from 05-16-2026 to 8-25-2026. *Consigned by McCorkill Family Farms.*

N13 is a moderate framed, long-bodied, broody type of female. She has cow written all over her. Her pedigree has some greats both maternally and from a carcass standpoint. That shines through in her attractive EPD profile, with her ranking near the top of the breed in all three \$ indices and in an efficient package. Bred AI to CL1 Domino 215Z on 05-02-2026 and confirmed safe by ultrasound with a heifer pregnancy. Pasture exposed to MMM 038H Nobleman N01 from 05-16-2026 to 8-25-2026. *Consigned by McCorkill Family Farms.*

Cosmetically, with her big goggle eyes and being red to the ground, this heifer will be easy to find on sale day...but genetically is where my interest lies. Her dam, 304L, scanned 8.59 IMF with a 11.06 REA as a yearling. Her sire, Churchill Red Cloud, is out of the great carcass cow Validated 7098. Not only does 606P have the potential to excel on the carcass side, she has the potential for maternal excellence as well. Her dam, 304L is a very tight uddered female and her granddam, 711E still has great udder quality as a 9-year-old. A maternal brother to 606P sold to Joseph Skrivaneck, TX, this spring. Retaining 606P's dam, a full sister to her dam, and granddam in herd. Halter broke. BW 85#. *Consigned by Phillips Renner Farms.*

Here is an opportunity to get some of the first embryos offered by Tahoe. This is an exciting mating with our lead donor "Belle" who has produced many high-end females that produce on a consistent basis. The last two heifer calves offered by her have averaged \$14,500, and the maternal sister to this mating sold in last year's American Royal and went on to win her division the next day as well as being reserve spring heifer calf in Denver. Embryos are located at Trans Ova in Chillicothe, Mo. *Consigned by Thompson Herefords.*

WARNING: Under Missouri Law, an equine activity sponsor, an equine professional, a livestock activity sponsor, a livestock owner, a livestock facility, a livestock auction market, or any employee thereof is not liable for an injury to or the death of a participant in equine or livestock activities resulting from inherent risks of equine or livestock activities pursuant to the revised statutes of Missouri.

Missouri Hereford Association - Missouri Opportunity Sale

Thank You

A special thank you to everyone who generously donated these lots and continues to support our Missouri Hereford juniors!

Lots 64-71 will benefit the Missouri Junior Hereford Association.

C&L LOEWEN REVA X51 20A

One of the leading donors for the WMC and Shockley Cattle Company programs. This lady has had a tremendous impact. At the WMC dispersal 138G commanded plenty of attention, and was one of the top selling lots, commanding over \$17,000. Her calves are built correctly, good numbered and the kind that make the front pasture their home! This mating with New Standard produced our nicest embryo bull calf of the year, as well as our top EPD numbered calf - we are excited to see what they can do for your program. The only embryos that have been sold from this mating were sold in the Cattlemen's Congress in OKC.

Proceeds benefit the Missouri Junior Hereford Association *Donated by Shockley Cattle Company*
